

# Western **ELITE**

forming system

# Western Forms

*Since 1955*

An aerial photograph of a large-scale construction project. The image shows a massive rectangular structure under construction, built using thousands of interlocking grey modular concrete forms. The forms are arranged in a grid-like pattern, creating a deep, rectangular pit. Several workers in bright yellow-green shirts and hard hats are visible on the site. One worker is standing on a red metal frame within the structure, while another is working on the ground level near a yellow metal frame. A red fire extinguisher and a white bucket are also visible on the gravel ground. The background shows a grassy area and a blue building.

# Inventors Engineers Manufacturers

# Western ELITE

## Pinlock attached hardware

Developed by Western Forms in 1995, the most efficient way to connect two forms. Period.

## Lightweight by design

Western Forms ELITE 36x108 with Pinlock weighs in at just 89 lbs. Work easier, do more.

## Vertical backbone

Stronger form, flatter wall. It's a backbone not a wishbone.

## Gasket siderail

Eliminate concrete leaking between rails, eliminate hammer blows on forms. Increase life of form. Save labor.

## Triple hole bushing

Maximum forming utility. Utilize to manage jumps. Adaptable to 8-8 hole pattern.

## Spring plate bushing

Cambered heat-treated plate bushing optimized to function with Pinlock attached hardware.

# Maximize production

*Gasket, Pinlock, and systemized baskets are the secret sauce giving contractors a competitive advantage to reduce labor and increase efficiency. Retain talent.*

# Form the details

The utility of the 6-12 hole pattern combined with the flexibility of the ELITE system makes it the go to for challenging details.

# *Simplify the process*

*Pinlock simplifies forming, sets faster, stays on the form. Make the new guy look like a pro.*

## Turn it up

When an architect throws it at you,  
form it with ELITE.

## Keep things clean

Save time, save labor, and save your forms with  
gasket siderails.

# Lightweight

36 x 108 with attached hardware  
weighs in at just 89LBS.

# *A tisket a tasket*

*Get organized with a Western Forms Basket.*
